Tebay Mosley Introduces Value Defined, Specializing In Comprehensive Business Valuations and Related Services

Maumee, OH -- Garth Tebay, Managing Partner, Tebay Mosley Associates, LLC, has announced the introduction of Value Defined, LLC, a professional services company dedicated to providing business valuations, fraud investigations, forensic accounting with litigation support, cost segregation studies and other value enhancement programs.

According to Mr. Tebay, "With today's growth of small, closely held businesses, it has become imperative for their owners to know the value of their equity in those businesses. Whether for succession planning, tax planning, litigation, or sale purposes, the worth of an enterprise should be regularly and empirically evaluated. Furthermore," he added, "Owners' futures and lifestyles are closely aligned with whether their businesses are increasing or decreasing in value. Value Defined is all about helping them determine where they are today and provide them with monitoring methods and road maps to value enhancement."

Mr. Tebay described the introduction of Value Defined as a "synergistic offshoot" of Tebay Mosley Associates, the traditional CPA firm he and his partner, Larry Mosley, founded 16 years ago. "In recent years, niches in the financial services industry have emerged that require specialized training and qualifications," Mr. Tebay said, "The area of performing comprehensive business valuations has become quite technical and we have become nationally and internationally recognized for engaging in this kind of work. We also looked at other services we were performing that didn't quite fit into the realm of traditional accounting firms and began working on bundling those services to offer under the new Value Defined umbrella."

Aside from Garth M. Tebay, CPA, CVA, CMAA, and Larry Mosley, CPA, Value Defined's lineup of experts include Gary A. Pfundt, Jr, CPA, CVA, Phillip E. Platz, CPA, CFE, Steven J. Wenzlick, CPA, CVA, Valuation Analyst, Thomas J. Beutler, CPA, and Jeffrey Normand, AIA, Cost Segregation Analyst. Renee M. Falkenberg is the firm's Valuation/Litigation Support Associate while newly appointed Director of Practice Development, Kim Wagenhauser, is charged with introducing the firm and its capabilities to the region's business, legal, insurance, financial and accounting industries.

Value Defined is located 6455 Wheatstone Court, Maumee, OH 43537 and can be reached by calling 419-865-4478.
